

Lecture 1

Island Life: an Introduction

Dr. Ido Filin

`ifilin@univ.haifa.ac.il`

25 October 2012

- 1 General course info
- 2 Nature documentary - BBC South Pacific Ep. 1

Course Info

- Island Life, October 2012 - January 2013.
- Language:
 - Slides in English.
 - Lecture and exam in Hebrew.
- Dr. Ido Filin, ifilin@univ.haifa.ac.il
- Office hours: Thursday 14:15-16:00,
Room 241, Multipurpose building.
- Time: Thursdays, 12:30 - 14:00.
- Place: Room 1021, "Madrega" building.
- Exam: mostly multiple choice (אמריקאי).
- מועד א': 17.02. מועד ב': 04.03.

Course Info

- Island Life, October 2012 - January 2013.
- **Attendance:** minimum 10 lessons.
- All of the course material will be available on the HighLearn system.

Outline

- 1 General course info
- 2 Nature documentary - BBC South Pacific Ep. 1

Pointers to the documentary

- 1 Basic physical/geographical characteristics of islands.
- 2 Island biotas, species number/richness (עושר מינים) and biodiversity (מגוון ביולוגי).
- 3 Evolution on islands – Characteristics of animals evolved on islands.

Pointers to the documentary

- 1 Basic physical/geographical characteristics of islands.

Pointers to the documentary

- 1 Basic physical/geographical characteristics of islands.
Isolated, Isolation, Remote, Small, Tiny, Specks of land,
Far-flung.

Pointers to the documentary

- 1 Basic physical/geographical characteristics of islands.
Isolated, Isolation, Remote, Small, Tiny, Specks of land, Far-flung.
- 2 Island biotas, species number/richness (עושר מינים) and biodiversity (מגוון ביולוגי).

Pointers to the documentary

- 1 Basic physical/geographical characteristics of islands.
Isolated, Isolation, Remote, Small, Tiny, Specks of land,
Far-flung.
- 2 Island biotas, species number/richness (עושר מינים) and
biodiversity (מגוון ביולוגי).
Unique set of creatures, Found nowhere else on earth, No
competition, Fill niche normally taken by mammals,
Colonizers, Less than 500 kinds of animals arriving on Hawaii

- 1 Basic physical/geographical characteristics of islands.
Isolated, Isolation, Remote, Small, Tiny, Specks of land, Far-flung.
- 2 Island biotas, species number/richness (עושר מינים) and biodiversity (מגוון ביולוגי).
Unique set of creatures, Found nowhere else on earth, No competition, Fill niche normally taken by mammals, Colonizers, Less than 500 kinds of animals arriving on Hawaii
- 3 Evolution on islands – Characteristics of animals evolved on islands.

Pointers to the documentary

- 1 Basic physical/geographical characteristics of islands.

Isolated, Isolation, Remote, Small, Tiny, Specks of land, Far-flung.

- 2 Island biotas, species number/richness (עושר מינים) and biodiversity (מגוון ביולוגי).

Unique set of creatures, Found nowhere else on earth, No competition, Fill niche normally taken by mammals, Colonizers, Less than 500 kinds of animals arriving on Hawaii

- 3 Evolution on islands – Characteristics of animals evolved on islands.

Unique, Unexpected, Bizarre, Misfit, Opportunity / Freedom to be different, Unusual, Like no other, Oddity, Strangest, Not typical, Extraordinary, Quirky evolution, Hawaii fruit flies: 1 colonizer → 1000 species.

Island biology in a (coco)nutshell

1 Basic physical/geographical characteristics of islands.

Isolated, Isolation, Remote, Small, Tiny, Specks of land, Far-flung.

2 Island biotas, species number/richness (עושר מינים) and biodiversity (מגוון ביולוגי).

Unique set of creatures, Found nowhere else on earth, No competition, Fill niche normally taken by mammals, Colonizers, Less than 500 kinds of animals arriving on Hawaii

3 Evolution on islands – Characteristics of animals evolved on islands.

Unique, Unexpected, Bizarre, Misfit, Opportunity / Freedom to be different, Unusual, Like no other, Oddity, Strangest, Not typical, Extraordinary, Quirky evolution, Hawaii fruit flies: 1 colonizer → 1000 species.

Island biology in a (coco)nutshell

Island Physics

- Isolation
- Small area
- Young age
-

- 2 Island biotas, species number/richness (עושר מינים) and biodiversity (מגוון ביולוגי).

Unique set of creatures, Found nowhere else on earth, No competition, Fill niche normally taken by mammals, Colonizers, Less than 500 kinds of animals arriving on Hawaii
